## Insurance Information

Insurance Cardholders name: \_\_\_\_\_ Cardholders DOB: \_\_\_\_\_

\_\_\_\_\_ **My initials show:** I understand and agree that if I have health and/or accident insurance, those policies are an arrangement between the insurance carrier and myself. It is ultimately my responsibility to contact my insurance carrier and verify my benefits for chiropractic care (including but not limited to; my deductible, my copay or co-insurance, my allowed visits, etc.).

\_\_\_\_\_ **My initials show:** I understand that this health care provider will prepare reports and forms to assist in reimbursement from the insurance company. Any amount authorized to be paid directly to this office will be credited to my account on receipt. I understand and agree that I am personally responsible for payment for services rendered to me. I also understand that if I suspend or terminate my care and treatment, any fees for professional services rendered to me will be immediately due and payable. It is understood and agreed that the amount paid to the doctor for x-rays is for examination and interpretation only and the actual films remain the property of this office, being on file where they may be viewed.

\_\_\_\_\_ **My initials show:** I authorize this health care facility to release all information related to the care I receive, to my HMO, insurance company, third party payer, or their designee, as may be necessary for the payment of my bill, determining benefits, or for utilization and quality review purposes.

## Consent for Care

### Chiropractic Care

\_\_\_\_\_ **My initials show:** I understand Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. When a patient seeks chiropractic care and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic evaluates the spine for vertebral subluxation and uses specific adjustments to assist the body in correcting the subluxation in order to restore the body's natural healing ability. We do not diagnose or treat any disease. (We only offer to diagnose and adjust vertebral subluxations). If in the course of the chiropractic examination non-chiropractic or unusual findings are present, you will be advised to seek the services or another health care provider.

\_\_\_\_\_ **My initials show:** I authorize Drs. James and/or Elizabeth Phillip to examine and administer care to my child as they deem appropriate through the use of chiropractic health care, and I give authority for these procedures to be performed.

### Notice of Privacy Practices

\_\_\_\_\_ **My initials show:** I further acknowledge that Phillip Family Chiropractic's "Notice of Privacy Practices" is available and I have the right to review Phillip Family Chiropractic's Notice of Privacy Practices prior to signing this document. The Notice of Privacy Practices describes the types of uses and disclosures of my protected health information that will occur in my treatment, payment of my bills or in the performance of health care operations of Phillip Family Chiropractic. The Notice of HIPAA Privacy Practices for Phillip Family Chiropractic is also provided on request at the main administration desk of this practice and on the website at [www.phillipfamilychiro.com](http://www.phillipfamilychiro.com). This Notice of Privacy Practices also describes my rights and Phillip Family Chiropractic's duties with respect to my protected health information. Phillip Family Chiropractic reserves the right to change the privacy practices that are described in the Notice of Privacy Practices. I may obtain a revised notice of privacy practices by accessing Phillip Family Chiropractic's website, calling the office and requesting a revised copy be sent in the mail or asking for one at the time of my next appointment.

**How long you decide to benefit from chiropractic care is *always up to you!***

Our goal is to provide a detailed assessment of your current health status and provide you the resources for a highly engaged and healthy body which is functioning at its absolute peak potential. Essential is a healthy spine and nervous system free from interferences called subluxation. You have taken an important step for your health through chiropractic.

## Types of Care in our office

People see a chiropractor for a variety of reasons. Some go for relief of pain, some to correct the cause of pain and others support their body. Your doctor will weigh your needs and desires when recommending your plan of care.

Which type of chiropractic care fits your healthcare needs best?

- Patch Care:** Short term relief of pain & discomfort. Once we get you pain free, you can choose to halt further care until your pain comes back or continue onto restoration care.

*(I want the doctor to recommend a short term care plan to get rid of my pain).*

- Restoration Care:** After your pain or discomfort is mostly under control, there are typically still subluxations and imbalances in your spine and nervous system that need to be worked with to prevent your problem/s from re-occurring and help you become more adaptable to the stressors that come with everyday life.

*(I want the doctor to recommend an appropriate schedule to continue to address my subluxations and imbalances so that my body functions better as a whole.)*

- Wellness Care:** After your problems are corrected, you have the option to keep it that way through regular wellness adjustments.

*(After restoration care, I would like to discuss a wellness schedule that works for me!)*

- Self Controlled Care:** Although we know most would benefit from consistent care, we respect each individual's choices when it comes to healthcare.

*(I don't want the doctor to recommend care, I would like to come in on my own schedule when I feel the need to.)*

**Please rate your commitment to your care:**

Not Committed - 1 2 3 4 5 6 7 8 9 10 - Very Committed

What are your goals in receiving care here?
